Dear Mr Gunderson

In response to the comments provided in the Colorado Department of Public Health and Environment approval letter dated October 20, 2003, regarding No Further Accelerated Action (NFAA) for Individual Hazardous Substance Site (IHSS) Groups 150 6 and 150 8 (Building 779) the following information is being provided

- 1 Figures 6 and 7 were included in the final document in error. The draft version had them referenced, but when the reference was removed in the final report, the figures were not removed from the Table of Contents and inadvertently appeared in the report
- 2 Figure 6 is actually the Rocky Flats Cleanup Agreement (RFCA) Attachment 5 Figure 1 and was approved as part of the recent revision after extensive review and modification by the RFCA Project Coordinators and their staff
- 3 The Subsurface Soil Risk Screen was removed because these two IHSSs were for surficial contamination. The subsurface will be evaluated as part of the IHSS Group 700-7 investigation

If you should have any further comments regarding this information, please contact Norma Castaneda of my staff at (303) 966-4226, or you may contact me at (303) 966-2282
